

SPECIFICATIONS

All 8 Models
Construction: cast aluminum and hardened steel.
Finish: polished aluminum and durable baked powdercoat.
MODELS CE, CM, KK, CECR
All 4 models have a large hinged coin tray that folds to protect the controls from dirt or damage when not in use. The balanced handle attached to the tray makes it easy to carry or store the counters.
Coin Stops: 20, 25, 40, 50 coins/tokens for wrapping, plus "C" for continuous flow into a bag.
Meter: Five (5) digit resettable, mechanical
Wrapping Tubes: Color coded nylon wrap tubes available for all US coins and various coin/token sizes.
Bagging Tubes: All purpose bagging tube.

Model CE Specifications
Processes: 1,800 coins per minute and can fill a bank wrapper in 4 seconds. Coin tray holds approximately 3000 coins.
Dimensions: W-10", H-12", D-16" closed, D-21" open.
Weight: 22 lbs. / shipping weight 27 lbs.
Motor: 1/30 hp, 115 volt, 60 cycle. (220V optional)
***Denominations:** Counts, wraps or bags U.S. \$, 25¢, 10¢, 5¢, 1¢ + .800, .882, .900, .984 1" tokens. Also, other coins or tokens up thru 28.5 mm (1.125") in diameter and 2 mm (.080") in thickness on request.

Model CM Specifications
Processes: Same as Model CE
Dimensions: W-10", H-12", D-12" closed, D-21" open.
Weight: 14 lbs. / shipping weight 19 lbs.
***Denominations:** Same as Model CE

Model KK Specifications
Processes: 1,800 coins per minute and can fill a bank wrapper in 4 seconds. Coin tray holds approximately 3000 coins.
Dimensions: W-10", H-12", D-16" closed, D-21" open.
Weight: 22 lbs. / shipping weight 27 lbs.
Motor: 1/30 hp, 115 volt, 60 cycle. (220V optional)
***Denominations:** Same as Model CE

Model CMB & CEB Specifications
Processes: 1,200 quarters per minute (CMB), 1,400 quarters per minute (CEB)
Dimensions: Same as CM, CE
Weight: 14 lbs. / shipping weight 17 lbs. (CMB) 22 lbs. / shipping weight 25 lbs. (CEB)
***Denominations:** Counts and bags (1) type of coin. (Customers Specify)

Model CECR Specifications
Processes: Same as Model CE
Dimensions: W-10", H-12", D-16" closed, D-21" open.
Weight: 23 lbs. / shipping weight 28 lbs.
***Denominations:** Same as Model CE

Model CR Specifications
Dimensions: W- 4 1/2", H-4", D-7
Weight: 9 lbs.
Motor: 1/30 hp, 115 volt, 60 cycle. (220V optional)

Model SM Specifications
Processes: Same as Model SM
Dimensions: W-22", H-13", D-12"
Weight: 19 lbs. / shipping weight 26 lbs.
Motor: 1/30 hp, 115 volt, 60 cycle. (220V optional)
***Denominations:** Same as Model CE

Model SE Specifications
Processes: 1,000 coins per minute.
Dimensions: W-22", H-13", D-19"
Weight: 33 lbs. / shipping weight 41 lbs.
Motor: 1/30 hp, 115 volt, 60 cycle. (220V optional)
***Denominations:** Same as Model CE

“ 75 Years of Quality Coin Handling Equipment ”

KLOPP has been a U.S. manufacturer of high quality, economically priced coin handling equipment since 1931. Our superb reputation for accuracy, rugged dependability and almost no service has been justifiably earned through the test of time.

U.S. Made + 1 Year Factory Warranty on Parts & Labor = Long Life, Minimal Service and Assured Reliability.

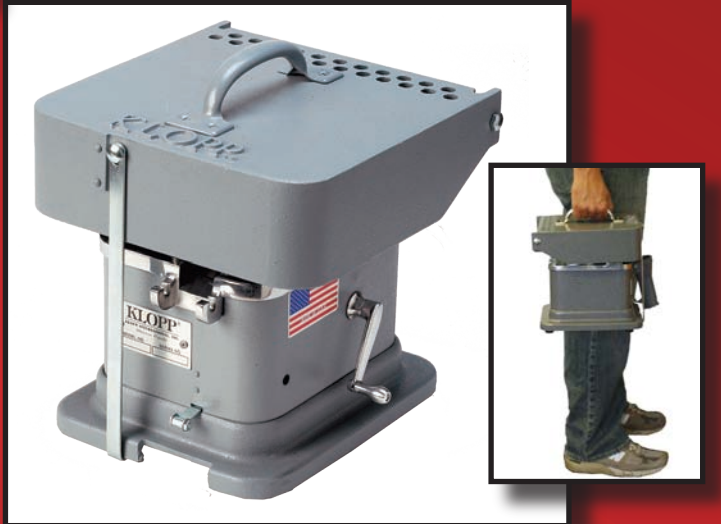

- One-year factory warranty on both parts and labor
- Factory parts, service, and rebuilding available

KLOPP equipment has been manufactured in the U.S. since 1931

Here's what Klopp Coin Sorters and Counter / Wrapper / Baggers / Crimpers will do for you...

- Eliminate 70% of the time now being spent to count and wrap or bag coins by hand or with a plastic slide...Money Back Guarantee.
- Eliminate human error caused by interruptions since the KLOPP does the counting, not the operator.
- Cut the labor cost of coin processing by providing fast and accurate counts the first time.
- Speed bank deposit preparation.
- Provide substantially more time for truly important duties.
- Improve morale by eliminating a boring and tedious job.
- Can be shared with other departments.
- Can be operated easily and safely by almost anyone.

Model CM closed

And here's how they do it!

- Sort 1,000 mixed coins per minute. (Models SE and SM)
- Fill a bank wrapper in four seconds and automatically stop when it's full. (Models CE, CM, CECR and KK)
- Count and wrap \$1000 in quarters in 20 minutes. (Models CE, CM, CECR and KK)
- Bag 1800 coins per minute. (Models CE, CM, CECR, CMB / CEB and KK)
- Provide 100% accuracy, 100% of the time
- Does not reject slugs or differentiate between coins or tokens of the same diameter

-- SORTERS --

- KLOPP Coin Sorters can be customized to separate many combinations of mixed coins.
- Sort 1,000 mixed coins per minute. (Models SE and SM)
- Up to 4 coins may be separated into individual bins. Specify which coins to be sorted when placing order.
- Foreign coin sorters available upon request.
- Sorters DO NOT count.

-- COUNTERS --

- KLOPP Counters will process all US Coins (\$1, .25, .10, .05, .01) and 5 token sizes (1", .984, .900, .882, .800). Larger tokens may be processed upon request.
- All models can be factory adjusted for foreign coins and tokens.
- Count and wrap \$1000 in quarters in 20 minutes. Bag 1800 coins per minute. (Models CE, CM, CECR and KK)
- Fill a bank wrapper in four seconds and automatically stop when it's full. (Models CE, CM, CECR and KK)
- The following counters (CE, CM, CECR, KK) include your choice of wrapping/bagging tubes.

Choose from: 25-cent, 10-cent and 5-cent wrapping tubes
-OR-
25-cent wrapping tube and All-Purpose bagging tube.

Model CE

Electric Counter / Wrapper / Bagger

Counts, wraps or bags dollars, quarters, nickels, dimes, pennies and tokens one denomination at a time. It's portable. It does not sort.

Pour a large quantity of the same denomination of coins into the tray. Set the controls and insert a bank wrapper in the wrapping tube. Turn "ON". In four seconds the wrapper is filled with proper number of coins and the coin flow stops. Repeat this process until all coins are counted and wrapped. The CE will also count and bag coins instead of wrapping with an optional bag tube. The resettable meter will tell you the number of coins that have been counted into the bag.

Model KK

Klopp Konvertible
Combination Electric and Manual Portable Counter /
Wrapper / Bagger

Easy to convert if the electric power goes off or if none is available. You can switch from electric to manual (hand crank) operation in seconds. Simply remove the hand crank from its storage location, insert it in the side of the counter housing and you're ready to count. The hand crank is super easy to turn because KLOPP's exclusive Pfraylea Bearing design **eliminates** all motor and motor belt drag when operating manually. KLOPP's positive lock-out system **prevents** electric coin counting operation while the hand crank is inserted in the counter. Has the same features as the Model CE.

Model CECR

Electric Counter / Wrapper / Bagger and Crimper

Counts, wraps or bags US Coins and tokens one denomination at a time. It's portable. A crimping mechanism on the side of the machine allows the operator to apply a professionally crimped seal to the open end of a flat or precrimped coin wrapper.

Model SE

Electric Sorter

Sorts quarters, nickels, dimes and pennies, one denomination from the other (Dollars and tokens optional). It does not count.

Pour a large quantity of mixed coins into the tray. Turn "ON" the SE. Feed mixed coins from the tray into the hopper. They will be rapidly separated into the individual removable coin boxes.

Model CM

Manual Counter / Wrapper / Bagger

Has the same features as the Model CE, but it is hand operated with an easy-to turn balanced crank. It does not sort.

The PORTABLE CM is ideal for routes or when a limited budget is a consideration. The CM weighs ONLY 14 LBS. While the PORTABLE CE and KK weigh 22 lbs. All three have a balanced carrying handle for easy movement. **The CM is also recommended for counting WET COINS/TOKENS from car washes.**

Model CMB
& CEB

Manual -or- Electric Counter / Bagger

Has the same construction as the Models CM and CE, but it counts and bags, one coin only. You specify what coin to bag. It does not wrap. Machines include all-purpose bagging tube for bagging coins.

Model CR

Electric Crimper for Bank Wrappers

For use with flat or precrimp wrappers. It crimps the open ends, creating a tamper-roof rolled edge so coins cannot be removed without evidence of wrapper theft. Crimping head storage rack is included with CR4 and is optional on the CR1.

Model SM

Manual Sorter

Has the same basic features as the Model SE, but it is operated with an easy-to-turn balanced crank.

Since it is not equipped with a tray, mixed coins can be poured directly into the hopper. **The SM will sort wet coins/tokens from car washes.** It does not count.
